MM 11 F

SPECIFICATION

Product Name : MM 11 F

Screen : 4.3 Inch, HD 272"480, Capacitive Touch Screen

Binocular camera : 200W Colorful WDR+200W Infrared live camera

Face Recognition Accuracy : 99.70%

**Recognition Distance :** 0.5-2.5 meters

Network Communication : TCP/IP Support communication USB, LAN, WiFi

Working Style : Online/ Offline

Capacity : 5,000 face 10,000 finger ,5000 cards capacity

FACE	Fingerprint	Password	RFID CARD

Features:

- 4.3 -inch HD 272*480, Capacitive
- Touch Screen 2MP Colorful WDR+2MP Infrared live camera
- Adjusts supplement light brightness manually
- Face recognition in a dark environment
- Face recognition distance: 0.5 to 2.5m
- Deep learning algorithm 5,000 face,10,000fingers, 5, 000 cards, 5000
- password Multiple authentication modes
- Face recognition duration 0.25 seconds
- Stand-alone operation
- Transmits data to the client software via TCP/P Support LAN communication, USB WiFi & saves the data on the client
- Software Capture linkage and captured pictures saving
- Imports data to the device from the client software
- Manage, search & set device data after logging in to the device locally
